- 45 Order blank.
- 46 Collections continued.

PHONECO, INC. occupies a 4 story factory building with 41,500 square feet including offices; electronic lab; polishing & painting area; assembly; wiring & testing area; and shipping & storage areas.

It began in 1971 as a husband and wife team. In 1981 we received a refurbishers license and FCC registration. Today we employ approximately 50 full and part-time employees-who clean, repair, test, and assemble the various types of phones-antique to modern. Our customers are worldwide. We are mainly mail-order, shipping daily to phone stores, antique shops, novelty shops, collectors and individuals who just enjoy the romance of old phones. We offer a line of reproduction parts for old phones as well as some, old original parts. We also have accessories for house wiring-jacks, plugs, and wire. All phones are buffed, polished, wired and inspected before being sent out. The metal phones likewise are checked as to whether the old finish is nice enough to polish or painting needed. Brass & nickel plated parts are also polished. All of our phones can be used as an ordinary modern extension.

We take a great deal of pride in restoring an old telephone to working order again. As a service PHONECO will also refurbish and bring our customers phones to a "plug in ready" state. Just send us your treasure with your specifications and we will give you an evaluation and restoration estimate. Our electronic lab has developed several types of networks and warbler ringers for us to use in some of the phones.

Reasons to have an old phone:

1. Investment
2. Decorative
3. Nostalgia
4. Solid construction
5. Quality
6. Long lasting
7. Unique
8. Pride of ownership.
9. Repairable

Phoneco Policies:

Warranty:

Phoneco, Inc offers a one year warranty for defects occurring under normal operating conditions. Return defective equipment (postage or freight prepaid) along with a copy of original sales receipt and description of the problem. Include return address and your phone number. 90 DAY RETURN ON NOVELTY PHONES.

Minimum order:

- No minimum order. But orders under \$2 could result in \$5 handling charge plus shipping cost.
- Add-on orders will be considered a separate order.

Payment terms:

- No checks accepted.
- C.O.D. will be certified check or money order ONLY!
- Phoneco reserves the right to require full or partial payment in advance.
- Visa, Master Card, American Express or Discover. (\$5 charge for declined cards)

Repairs:

- We will repair and make your phone functional. We will give you a quote on all parts, repair and labor beforehand.
- Customers are encouraged to include a detailed description of the symptoms or trouble encountered with each piece of equipment, part and service required.
- A 30 day return limited warranty is provided on replacement parts and labor performed. This warranty covers defects resulting from normal use, excluding damage from shipment, handling, improper installation, or electrical fluctuations. Phoneco shall not be liable for any special or consequential damages, or for loss, or expense directly arising from the use of or the inability to use the repaired equipment. We will not be responsible for tampered with or misuse of phones. Equipment will be returned by UPS unless otherwise specified. Prices are subject to change without notice.

Damaged items:

-Notify UPS carrier immediately of damage. Ask for an inspection and claim form. Be sure to keep ALL cartons and packing until after inspection is made.

Returned goods:

- Pack very well. Damages and repairs will be subtracted from refund.
 - Bag all loose parts.
 - Indicate who you spoke to at Phoneco.
 - We accept returns, exchanges, and refunds.
 - Please get our permission before returning an item.
 - Special or custom phones made to order, are not returnable.
 - We request items be returned in 30 days, if you are not satisfied.
 - Our receiving department does not accept C.O.D. or collect shipment unless approved in advance. We will make refunds accordingly after inspection of items.
 - We make all effort to accurately represent our offering, so that you know exactly what you are getting; however, occasionally misunderstandings still do occur and we don't want you to keep an item which you are unhappy with.
- Customers generally pay shipping both ways.**

Order by phone, mail, fax or email:

- We appreciate orders by phone. Please don't call collect, we will not accept. Call us at 608-582-4124.
- Our fax number is 608-582-4593.
- Our email address is PHONECOINC@AOL.COM.
- WEB PAGE:
<http://www.phonecoinc.com>

Delivery:

- We prefer to ship UPS. Give us an address that UPS can deliver to. Keep in mind 1st day, 2nd day and 3rd day select is expensive. Any 1st or 2nd DAY AIR orders should be called in before noon.
 - Rush orders are an extra \$3 charge.
 - Canadian and Foreign orders add \$10 charge to process checks.
- Other information:**
- For mail in orders, see order blank form. Item under 2 lbs. can or may be shipped by postage. Give us your postal delivery address.
 - We are on the list of refurbishers with F.C.C. under the name Phoneco. We have the second highest rating in Dunn & Bradstreet. All phones here have single line (private-line) ringers.

Prices subject to change without notice.

Phones are old unless noted.

Don't delay in ordering. We reprint our catalog about once a year and prices always go up.

WOODWALL PHONES:

We have a good number of mostly **cathedral top picture frame fronters**. These will be with nearly all old parts, largely original equipment. May have new rec. cap. All have a repro mpc. Oak. Nicer ones **CTPF2**.....\$425.

FRHS Ivory.....\$35. FRHSB Black.....\$35.

Cradle. 4" wide. Will work on most French style phones.
FRCRA.....\$25.

Sterling all old but with reproduction receiver and transmitter. Wired as an ext. SAO.....\$195.

Sterling not wired to work. SAONW.....\$175.

Original about 1930 Connecticuts made over or refurbished by Chicago Telephone & Repair Company in about 1940 or so. As is. They are decent, but could be refurbished (some of them). 7" wide and 5-3/4" deep. A grille is at the top on the door. Behind this grille is a single gong

ringer. These could be made to work with some ease and also made into an older looking phone (separate transmitter and receiver) with some ease. Comes with handset. CCTR.....\$125. 5 @ \$95 each.

If we refinish and make it work here, add \$50., and if we put a dial inside the door and make it ring on your line, add \$100. We will gladly send you parts for you to do the above as you wish. Make into cute little phones w/separate receiver & transmitter, dial & little shelf. Add \$75 for a total of \$250.

Fiddleback. Limited time offer. These are the common battery type as they were called back in the early teens and used an operator at central to signal. You would merely lift up on the receiver and hear the operator offer

to provide you service. There was no need for a magneto. We could install one for \$35., but then it would not be original. Original.

Oak Kellogg.

FIDDK.....\$425.

Some with magneto...\$495 & up.

Some may be more ornate &/or be Dean.

OLD PARTS:

Empty old **oak bell boxes**, ok condition need refinished. EOOC.....\$20.

Old **wiring harness** from wood bell boxes. Comes w/coil & capacitor Kellogg, Leich, SC, & WE. Also comes w/ some terminals. Some did not have capacitors. HARN.....\$10 per set. W/O capacitor \$8.00.

Various **coils.**

COIL no choice.....\$2.

10 @ \$1 ea.

COILC choice.....\$5 each.

101A coils. 101A.....\$12.

195A capacitor....\$6.

Magnetos:

Common 3,4 or 5 bar WE, Kellogg, SC, not including crank. Mags are tested for ringing bells. Give mounting holes & distance from shelf to crank center.

MAGN3 3 bar...\$50.

MAGN4 4 bar...\$60.

MAGN5 5 bar...\$75.

Rarer/harder to find ones \$85 & up.

Small mag out of Ericsson crankers w/crank.

SMMAG.....\$45.00.

Cranks oldest.

CURCR curved.....\$25.

Not Western Electric.

With chipped knob.

CURCH.....\$18.

With repro. knob.

CURRE.....\$18.

PLACR plain steel.....\$14.

NICCR nickel or brass...\$18.

With steel repro knob.

NICCK.....\$10.

Old magnet for receiver.

MAGN1 working.....\$20.

MAGN2 nonworking....\$10.

This **switch box** can be used for switching a telephone set to any 2 or 3 lines. Use 1 phone for up to 3 lines.

Overall dimensions:

6-3/4X3-3/4X1". XB.....\$25.

Bulldog bakelite old transmitters. Kellogg, Stromberg Carlson, Automatic Electric with element.

BULLB.....\$15 each.

Have a few Western Electric with F1 capsule.

BULWE.....\$20.

Old Kellogg door screw, catch & ferrule.

DCS01.....\$10.00.

Old Western Electric Door, screw & catch with esc. plate.

DCS02.....\$10.00.

Used in many wood walls and ringer boxes.

DCS03.....\$9.00.

Old W.E. crank esc.

ESCO.....\$5.00.

Old crank esc. various sizes.

OCESC.....\$5.00.

Old switch esc. W.E.

OH130.....\$5.00

Old clapper cover. Kellogg or S.C. Specify Nickel, Brass or Black & for what make of phone.

OR180.....\$6.00.

Old clapper cover for Leich.

OL180.....\$5.00.

OC180.....\$5.00

Old clapper cover plain W.E.

OPCC.....\$6.00

Old curved clapper cover W.E.

OCCC.....\$8.00

Old ringers, common types WE, Kellogg, SC. OLDRI.....\$30.

Bells extra. When ordering WE note whether for 2-1/2" (curved posts) or 3" bells (straight). Other makes.

OMOR.....\$40.

Non posts older NPOR.....\$50.

We have numerous old party-line ringers. They will not ring on line, but will ring with magneto. Good for holding bells for looks.

OPLR.....\$15.

Nonworking:

NOPLR.....\$10.

W/Q \$144.

Telesense black candlestick. Fully modular. Touch tone pulse dial. Black or brass.

P078K
black.....\$209.
W/Q \$146.

P078B
brass.....\$209.
W/Q \$146.

Candlesticks do not ring add \$30 for network/warbler installed or \$10 for warbler (ringer).

All of the candlesticks work as an extension phone unless otherwise noted. Not F.C.C. approved nor do any of them have ringers in them as none were put in them originally unless otherwise noted. If you want your candlesticks to ring, we can install small warbler for \$10 additional cost; or a network warbler (called a candlestick network) for \$30. Ringer boxes are also available. See ringer box page 14. All you have to do is plug them into any jack and you have a ringer. If you would like the ringer box to be attached to the candlestick, we need to know how many feet of cordage is needed between phone & box. \$30 extra will be charged for this which includes 6-1/2' cordage, network and labor.

Old Candlesticks:

All original candlesticks have new mpc & rec. cap. Most have upgraded transmitter and receiver elements (inside). Can have old mpc for \$25 extra.

1921 **AE** all brass but with most of original finish. Original except mpc.
BS20.....\$475.

1919 **Automatic Electric** with all old parts except mpc.

With A.E. plain face and 3" dial.
BS18A.....\$475.

Have with small older dial.

EUROPEAN PHONES:

Baroque phone
French handset.
BARFR.....\$249.
W/Q \$174.

The back on these phones is a cast metal (recently) painted black with brass bells above the phone, a typical European look, for they like the ornate design. Mostly reproduction.

Baroque two-piece
BAR2P.....\$249.
W/Q \$174.

This is a European 1918-1931 (dial added after 1925) telephone by **Rikstelefonen**. It measures 5-1/2"x7"x9". This is a wonderful addition to any telephone collection.
RIKST.....\$225.00

1909 Danish/Denmark.
Copenhagen.
As is.
DANIS
.....\$149.
W/Q \$104.

Original paint. May be chipped. In order to preserve decals we will not be repainting. With dial added.
DAND2.....\$250.
W/Q.....\$175.

DANWD.....\$250.
W/Q.....\$175.

Sultan as is \$175. (not nice finish).

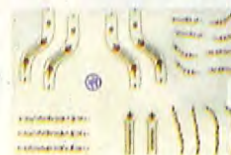

These have original pre-1921 Red & gold **decal**. There are 4 variations depending on country and the time period. Those not shown \$25 extra. To hand pick close to a nice decal \$30 extra. None are perfect or mint.

SULTI ivory.....\$350.
W/Q \$245.

Danish phone ivory, white, & black. Red copper.
DANIV.....\$350.
W/Q \$245.
Red, copper style can vary a little.

Full set authentic (as taken off of an original) water decals (19) gold, tan, turquoise. For skeletal phones.
SKEDE.....\$12.
450 at \$5.00 each.

Gold water decals to compliment an otherwise blah phone. Gold L.M.E. decal 3X5.
LMEDE.....\$3.
10 @ \$2.00.

1893-1932 LME called **Eiffel or Skeletal**. The most naturally ornate phone made. May have repro mpc but ornate old wood connection block. (no teardrops or decalling) Refinished.

EIFFE.....\$2500.
Original but needs total refinishing.
EIFFU.....\$1250.

French phone original not a repro. Green cords on most, high shine nickel-plated brass & wood handle. Has original ringer.
Please specify green, brown or black cords.

Old original French phone with original dial. FRENDD.....\$309. W/Q \$217.

FREID
ivory
.....\$309.
W/Q \$217.

Belgium bell phone.
BELGP.....\$234.
W/Q \$164.

White and black or we can paint any combination of colors that you want. Art deco.
BELG2.....\$234.
W/Q \$164.

The sharpest replica of the 1892-1932 Eiffel made! Originally cost \$1300-1500. By original manufacturers (LME) 1976 and recently refurbished by Swiss Telecom. These have nearly the same materials used in them as the originals. The pulse pad has not the star or pound. Prices will increase according to supply and demand. Very heavy.
EIFFR
.....\$499.
W/Q \$349.
For options, see website.

European Phones-

Magneto Phones:

All of these magnetos are original mag. crankers. Magneto phones are as is.

For communications from fixed location to another. Each with crank, generator, bells, and handset. 3v required for voice circuit black.

RDDM as is.....\$49.

RDWM as is\$49.

Bells are 2-1/2" brass same as oak phones SQDMas is\$59.

The magnetos out of these work fine in an old wall phone with shimmying. Crank them as a nice doorbell. Plus talk to the stranger without opening the door. You make work to your requirements.

SQWM as is\$49.

1937 Dial **magneto** with no magnet to ring bells.
37DM..\$149.
W/Q \$104.
With magneto to ring bells
37DWM..\$169.
W/Q \$119.
As is \$65.

PTT03.....\$159
W/Q \$111

European Hiboy. Comes with brass finger wheel. Nicely pinstripped. Without mag.
EHO.....\$179.
W/Q \$124.
With mag.
EHW.....\$194.
W/Q \$136.
Cloth cords add \$12.

Painted ivory add \$15.

Short version of the European Hiboy.

EHO2.....\$199.
W/Q \$139.

With or without pinstripping.

NICE WORKING PHONES FOR HOME USE: (phone which does not ring, but can answer when you hear another phone ring, also has spring loaded aluminum door available separately for \$14.)

20's style open slot coin return payphone with separate receivers & transmitters. New/repro trans/rec added to a 50s style. Back, bottom & tops are new. **PAY16**\$339. W/Q \$230.

Can also have same options as on the top of page 19.

All top housing locks will be generic, new lock modified to work with screw driver.

Same as PAY16 only using 3" dial like PAY10B. **PY16S**.....\$339. W/Q \$230.

All top housing locks will be generic, new lock modified to work with screw driver.

Can also have same options as on the top of page 19.

NEW! Payphone history book. Approx. 350 page history of payphone, booths & signs. At least 10 pages packed with signs. Over 200 signs pictured and mentioned. Generously illustrated. **PHB**.....\$?

(OLD!) #pay10 and #pay18 with both, may be cloth wired to work unless specify "no". Old 101A ind. coil used on some WE & old equipment [transm (except mpc) & rec] old guts left in, unless you wish new. We can enclose the old in a sack (the old units will not work right under more than occasional use.) The only thing repro is mpc & sw-hk. Partial wood strips. For either phone we have no orig. switch hooks.

All bottoms are pre-1935:

Easy to date origin at prior to 1935, WE parted from Gray in 1934. Cloth cord, old W.E. transmitter and rec units. Includes older cast coin gauge at top. 95% old.

8-with chrome bottoms will have painted black tops. A number of these may also have the backboards dating back to the early teens. The tops will be post-1934 but likely pre-1948 or 57 (not sure when the shallower socket began) Gray AE transmitter holes. **PY18A**.....\$550.

Most of the remainders of these are painted black.

Will have 1934-40 W.E. steel tops having the original mounting holes for the 1925 oval transmitter mount (offered in W.E. & Grabar catalogs till early 50s). **PY18B**.....\$600.

4-of the black will have cast iron 1920-35 tops with the oval transmitter arm mounting holes. **PY18C**.....\$675.

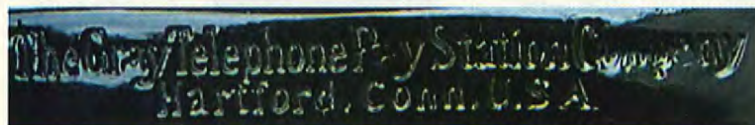

If we have one or encounter one with the butterfly mounting holes, indicating that the top was of a 1920-25 manufacture and the wider spaced holes drilled later after the oval arm came to be (after 1925). **PY18D**.....\$790.

The stamping: "The Gray Telephone Pay Station Company and Western Electric Company, Inc. Makers" are above the door on these.

We are out of the braided cord as shown.

Gray/Western Nameplate. Reproduced in aluminum from an original, which was riveted onto the front of the 1911-16 cast iron bottoms. **GRAYN**.....\$19.

Gray is stamped above the door. Used our best old equipment on these. The tops believed to be 1933-50. The hole is deepest for dial than the 1950s top. Includes old brass receivers. 50-85% original. 95%.

Original Gray/A.E. These will have only terminal strips with contacts, etc. inside.

Gray Paystation Company with address on chrome bottom, black top 1931-38. (bottoms) **PAY10B**.....\$650.

Same but no address 1917-31. (specify chrome or black bottoms) **PAY10C**.....\$665.

A collection is possible having five different old payphones: 10B and 10C each being of different eras, an 18 and a 1948-56 AE with bakelite handset, and any from the 1940 to 1958, 182 thru 212 series W.E./N.E. all having nearly the same bodies but each with different nomenclature and attire.

NICE WORKING PHONES FOR HOME USE: (phone which does not ring, but can answer when you hear another phone ring, also has spring loaded aluminum door available separately for \$14.) All top housing locks will be generic, new lock to work with screw driver.

Will have new bottom, back boards & AE hooks.
PAY6 black NE.....\$339.
W/Q \$229.

All payphones this page can have the options described below at an extra cost except the wood/metal payphone.:

- a) ringer installed \$12.
- b) original 10L old locking door \$45.
- c) top sign with phone \$12.
- d) extra top housing keys \$5.
- e) armored cords \$10.

Options above do not apply to the originals. PAY 10 & PAY18.

All top housing locks will be generic, new lock to work with screw driver.

Final non-replenishable inventory as of March 2000.

1940's-1955 pay phones most have numbers (i.e. 182, 191, 212, 233). Generally lower numbers suggest an earlier age. We have refinished, orig. finish, and as is.

The following include locking door.

Earlier models most always marked with number on the back, upper housing & sometimes coin

storage area. These numbers were sometimes painted over by professionals in the 1960s and 70s. Often, renumbered (236) over a painted-over earlier number. Have a few, obviously 180s w/o numbers. Where other numbers may have absent parts - particularly tops. We may select one of these for replacement.

2-223's (2 are nice). PA223.....\$499 each.

2-212's, also 3 extra tops. PA212.....\$500 ea.

2-203 w/unmarked backboard. PA203..\$525 ea.

1-200c w/unmarked bottom. P200C..\$550.

4-197's refinished. PA197..\$575 ea.

Also as is 1956-61:

- 1 fair finish \$540
- 1 fair-poor finish \$530
- 1 poor finish \$520
- 1 very poor finish \$510.

2-193 refinished. 2193P.....\$565.

6-191's (1949-55) 4 refinished, 2 others complete can't see details.

First 3. 3P191.....\$600 ea.

Next 2. 2P191.....\$650 ea.

Last 1. 1P191.....\$675.

1-182 nondial 1940 can add dial. PA182....\$700.

Wood backboard black. Large enough to mount the older payphones on with the bell box mounted below it. CACBB.....\$39.

Shorter version for mounting on the payphone. CACBS.....\$39.

Original steel backboard. For mounting the payphone. CACSB.....\$10.

The **handles** for the top of the Gray Paystation model 14 on those with candlestick attached. These are rough cast brass pointed flat black & require some smoothing to polish them nice.

Sorry; it was disappointing to see them come this way. G230.....\$6.50. 5@5.50.

Phonoco, Inc. 21
PH: 608-582-4124 FAX: 608-582-4593

COTBK black.....\$450.
COTCH chrome.....\$450.

Operates as follows:

1. Lift up handset (should have dial tone).
2. Dial number.
3. Deposit coin when party answers (this will switch transmitter to turn on so you can talk to the party).

Drawbacks:

1. Takes only 1 coin, not a combination.
2. Use for outgoing only (does not ring).
3. Does not return coin if you deposit coin first and get a busy signal or no answer.
4. Long distance calls can be placed only by operators, using calling card or collect call (timer is engaged so coin will be needed, unless you have unlimited time option).

The coin phone you own. The phone that pays you!

2nd choice, different from left phone, use this option for the fun of it:

Quarter relay add \$65. Old phones wired so you must put a quarter in to get transmitter to work. You would not be heard by the one you call until you drop the quarter in. You can call anywhere you want for a quarter for unlimited time. It will still show up as a long distance call on your phone bill. This option is only for the habit of fun using the quarter. This quarter relay can be applied to only A.E. payphones on page 20 for an extra \$65. Wired as extension, but can answer by hearing another phone ring; however you still have to deposit a coin to talk.

How many of your locations need a \$1000 phone with all the bells and whistles? you need high-tech phones now, but don't want to pay the price? That's where our phone comes in. Most of our orders are for laundromats, small restaurants/cafes and even a small business for the employees use.

What does this phone do?

Can be timed. Your discretion. Or not timed. Adjust timer from 1-1/2 to 5-1/2 minutes. There is a "beep" signaling that you have 18 seconds to either say bye-bye or deposit another coin.

Or if you don't want it timed, just pull the little plug! Let them talk all day for a quarter.

Three choices for operator and information:

- A. Free.
 - B. For a quarter.
 - C. Not at all.
- You determine this by the little "switches" inside. You switch on the operator or off the operator. You select whether the operator comes on for free or for a quarter! Just by switching! (Information restriction is achieved by restricting the #1). Mandatory free 911 emergency. Your choice of 8th digit restriction or not. But, remember if you make it unrestricted, they can dial long-distance for a quarter. We set the options here, first and send instructions with phone for you to change for future.

Quick Reference Chart picturing & numbering the most common Gray, WE, AE & NE payphones 1898-1972. Thru WE/NE #236. Two to four pages. QRC.....\$10.00.

Country Junctions: Shown here are variations. The backboard onto which concepts are mounted upon came from Odie Mahue, Gretna, VA in about 1980. Odie told us that besides having used old telephone backboards, the wood came from a 100+ year old mansion. This explains why most of the wood has the same feel as a 1895 wooden wallphone. Thus all of these backboards are old. The boxes mounted onto them are of original 1906-1929 manufacture. Magnetos have been removed but can be reinstalled for an additional \$40-\$80 depending on the scarcity. Bells, ringers, some switches & hooks & rotary dials are old. Bulldogs can be installed for no additional cost. Bulldogs are old. (see #WE2CB for example) Thus, 50% to 80% of this unit is old. Similar arrangements were used by telephone manufacturers prior to 1920. Backboard design varied & most were merely rounded at top and/or bottom. All phones ring, dial & talk, but can also be purchased in kit/as-is/piece-part form. Most any wall phone can be mounted on these old boards. Done here for \$25 oak \$33 walnut. Boards are \$15 oak, \$20 walnut. Other parts found throughout the catalogue or priced on inquiry. Pinstriping was used on many items including telephones and automobiles prior to 1942. Pinstriping furthers the nostalgic attractiveness and can be had on most any of these for \$10 additional. Be the only one in your block to have one of these done up 1st class.

Collecting & collections (Investments):

~Western Electric~

Various ways to collect phones. Some of us accumulate; some collector. Some collect one make, such as Kellogg; some style such as candlesticks; some collect that just appeal to them, some collect for the decor in their home; some collect colors & models of a specific make like 500 sets, and some collect for the investment and in the future their collection will be worth more. Many scour the antique shops & flea markets for old telephones, only to find them harder & harder to find and realize old phones just aren't plentiful anymore. Likewise ours here won't be around forever even though we will continually place a high value on rareness or scarcity?

Also available one collection of over 75 different steel ringer box & steel "hotel" (small) telephones. "As is" w/repro receivers (where applicable as some used handsets in the 40s & 50s). Having cost as low as \$12. A Kellogg or S.C. ringer boxes were used on rural lines & likely have partyline ringers in them. If they have brass bells (which many would likely have) 3/4 of the value would be in the bells.

Telephone Collecting, Seven Decades of Design, by Kate E. Dooner. A history of the design of the telephone is presented from Art Deco years to novelty phones of the 1980s in text and over 250 color photos. Memories will be awakened as you page through the book to see the phones you grew up with. Old telephones are appearing in antique and collector shops throughout America, becoming one of the hottest new finds for collecting or just as accent pieces. Size 8-1/2X11".
BK4.....\$24.95

Telephones, Antiques to Modern, by Kate Dooner. Over 500 color photographs cover the development of the telephone from Bell's first experimental equipment. Exquisite examples of wooden box phones, vanities, upright "candlesticks," and desk stand or "cradle" phones. An important reference for novice and avid telephone collectors alike.

W/Q=wholesale quantity. This means that when we have copy of your resale certificate in our files you are entitled to these prices and you intend to resell our merchandise. You also are entitled to these prices if you belong to one of the telephone collectors clubs or are in business selling phones and other antiques or collectibles. Most important that you place repeated orders.

As is=as we get them, you get them, rusty, dirty, cruddy looking. You fix it up, clean it up, repair it, you make it work. **Ask us prices on As-is phones along with refinishing and wiring instructions, refinishing products.**

NOS=new old stock (unused).

Prices subject to change without notice.

Many older phones were on party-lines and have party line ringers (frequency) in them. Therefore, to ring on today's lines the party line ringers have to be updated to single line ringers. Many times networks and receiver and transmitter elements also have to be updated. Cords can be your choice, cloth, coiled, or straight.

Phones are old unless noted.

Questions and answers:

-We try to answer all questions that you may have related to phones and parts. We are happy to make quotes on special requests and old parts. When we do make quotes please return all past correspondence with future related correspondence. With all requests an SASE is appreciated.

When ordering an "original", please detail to us the extent of originality you want such as modern elements for clarity or original carbon granulars and magnetic guts to work as they did in the past.

NOVUS PLASTIC POLISH: Time-proven techniques for cleaning and restoring plastics. Works well on the early soft plastic as well as the later hard plastic, it will polish the clear plastic fingerwheels and other clear parts on your phones as well. Buy all three. 3NOVU.....\$17.50 or

To clean & protect use Novus #1. Gently cleans all plastics without scratching. Leaves a lustrous shine that resists fogging, repels dust, and eliminates static. Resists finger marking. Contains no abrasives or harsh chemicals. Leaves a smooth, clean, greaseless shine. NOVU1.....\$5.75

To restore & refinish use Novus #2. Removes fine scratches, haziness and abrasions from most plastics. With repeated use it restores faded and discolored plastics. Removes the damage instead of filling it in. Buffs out quickly. After restoring, seals with a coat of polish. NOVU2.....\$6.75

To repair & prepare use Novus #3. Removes heavy scratches and abrasions from most acrylic surfaces. Use when damage is too severe to be restored with this polish. Requires use of Novus #2 for final finishing. Not recommended for use on coated plastics. NOVU3.....\$7.75

COLLECTIBLE NOVELTIES PHONES from 1970-1995: (these are used & may come w/ imperfections here & there, but we have polished & restored them the best we can. Any with a function that does not work, such as no ringer, no TT, no rec. or trans. -deduct \$20. Some of you are not concerned with workability.
